CHE 251

Fall 2015

Organic Chemistry I

3 credits

Class Information			Instructor Information		First day of classes:	Wed Sept. 7, 2016
Days	WF		Lecture Instructor Lab Instructor TA	Liza Abraham PhD Liza Abraham PhD Ola Olatunji PhD	Last day to add/drop, or change to audit:	Sun, Sept 18, 2016
Time:	11:15-12:30	E	Email	labraham@ambrose.ed u oolatunji@ambrose.ed u	Last day to request revised exam:	Mon., Oct. 24, 2016
Room:	A 2141	F	Phone:	403-410-2000 ext.6921	Last day to withdraw from course:	Mon, Nov. 14, 2016
Lab/Tutori al:	W 4:00-7:00	c	Office:	A2160	Last day to apply for time extension for coursework:	Mon, Nov 21, 2016
FINAL EXAM: M December 19 (1:00- 4:00)		C	Office Hrs.:	W/F: 9:00-10:00; 1:00- 2:00 M: 9:00-2:00 T/R:9:00-11:00	Last day of classes:	Mon, Dec 12, 2016
Textbook: Link to an online textbook will be provided						

Course Description: This course review the basic principles of chemical bonding as they apply to organic molecules, and are introduced to the concept of stereochemistry, spectroscopy and reaction mechanisms.

- Acidity and Basicity Brønsted–Lowry Acids and Bases and their Reactions, Acid Strength and pKa, Predicting the Outcome of Acid–Base Reactions, Factors That Determine Acid Strength, Common Acids and Bases
- Alkanes- Naming Alkanes and Cycloalkanes, Conformations of Acyclic Alkanes, Conformations of cyclohexane
- Stereochemistry- Chiral and Achiral Molecules, Labeling chiral Centers with R or S, Diastereomers, Meso Compounds, R and S Assignments in Compounds with Two or More chiral Centers and Disubstituted Cycloalkanes
- Spectroscopy-Mass spectroscopy: Mass Spectrometry and Fragmentation

Infrared Spectroscopy: IR Absorptions , IR and Structure Determination Nuclear Magnetic Resonance Spectroscopy Number of Signals Position of Signals, The Chemical Shift of Protons Intensity of Signals, Spin–Spin Splitting and Using ¹ H NMR to Identify an Unknown ¹³C NMR Spectroscopy

- Nucleophilic Substitution General Features, The Leaving Group, The Nucleophile, The SN2 Mechanism, The SN1 Mechanism, Carbocation Stability, When Is the Mechanism SN1 or SN2? And Organic Synthesis
- Elimination Reactions- General Features of Elimination, The E2 Mechanism, The Zaitsev Rule, The E1 Mechanism, SN1 and E1 Reactions, Stereochemistry of the E2 Reaction, When Is the Mechanism E1 or E2?, E2 Reactions and Alkyne Synthesis and When Is the Reaction SN1, SN2, E1, or E2? 31

Requirements:

LABORATORY SAFETY COURSE: All students are **required to complete a safety course on chemistry laboratory safety before your first laboratory session.** This course can be accessed online; it will appear on your Moodle site. You need to obtain a minimum of 80% to pass this course. Read the information provided in the PowerPoint presentation there, watch the video and complete the quiz and hand it in to the Lab Instructor in your first tutorial.

Pre-lab quizzes will help you to perform the necessary calculations, to make the lab quicker and easier. Prelab quizzes will be available on Moodle for you to print and make a copy of it. Complete it and hand it in to the Lab Instructor before start of each lab. Students wearing inappropriate laboratory attire or with incomplete pre-laboratory assignments will not be permitted to conduct experiments for safety reasons (see online lab manual for details). The grade for each experiment will be based on your pre-laboratory assignment, your performance in the laboratory, and the required experimental report.

You will have five labs to perform; three of them requires to fill in worksheets and two of them to submit formal lab reports. Worksheets are due at the end of the lab. Formal lab reports are due next week at the beginning of the tutorial. Each lab is out of 20 marks. Each worksheet or lab reports are worth 15 marks. Prelab quizzes for each lab count to 5 marks. Refer to the lab manual on Moodle for details.

All classes are cumulative so what will be learned at the start of the course will be continually applied throughout the term. Tutorials are opportunities to work in groups and learn how to take good notes. You will have several opportunities for formal feedback on your progress throughout the term. During each tutorial, students work collaboratively in groups of 3 or 4 on a series of problems before writing an individual quiz. There will be six to seven tutorial quizzes, one term test, one final exam, five pre-lab assignments, and five laboratory reports (two formal reports and three work sheets). Tutorial activities and pre-lab assignments, and experiments will all help you to prepare for Term Tests and Final Examinations. Examinations are a combination of multiple choice, short answer and written answer questions. During exams students are allowed to bring only pencils, pens, erasers, model kits, their ID card, and *non-programmable calculators.*

Attendance:

Class participation is extremely important to your learning in this course. If you miss any class please make sure to complete the notes from your peers.

Grade Summary:

The available letters for course grades are as follows:

<u>Letter Grade</u>	Description
A+	
A	Excellent
A-	
B+	
В	Good
B-	
C+	
С	Satisfactory
C-	
D+	
D	Minimal Pass
F	Failure
•	

In determining the overall grade in the course the following weights will be used:

Laboratory Experiments	25%
Tutorial Quizzes	10%
Term Test I	10%
Term Test II	10%
Assignments	15%
Final Examination	30%

A mark of less than 50% in the laboratory component and/or on the weighted average of the midterm and final examinations will result in a final grade of no greater than D. Completion and submission of reports for fewer than three laboratory experiments will result in a final grade of no greater than D. A grade of D does not satisfy the pre-requisite requirements for further chemistry courses or admission to programs in Biological Sciences.

Grading Scale:

A+	Α	A-	B+	В	В-
95% - 100%	87% - 94.99%	82% - 86.99%	77% - 81.99%	72% -76.99%	66% - 71.99%

C+	C	C-	D+	D	F
62% -	58% -	54% -	50% -	45% -	< 44.99%
65.99%	61.99%	57.99%	53.99%	49.99%	

Because of the nature of the Alpha 4.00 system, there can be no uniform College-wide conversion scale. The relationship between raw scores (e.g. percentages) and the resultant letter grade will depend on the nature of

the course and the instructor's assessment of the level of each class, compared to similar classes taught previously. Please note that final grades will be available on student registration system. Printed grade sheets are not mailed out.

Academic Accommodation:

Ambrose University is committed to ensuring that each student is afforded an academic environment that has been developed on the principles of equal and equitable access, respect for individual differences, and academic integrity. Accessibility and Support Services offers services to students with documented disabilities including learning disabilities, chronic health issues, hearing and visual impairment, disabilities and temporary impairment due to accident, illness or injury. It is the student's responsibility to contact the Accessibility and Support Services office to request academic accommodation. The nature and type of academic accommodations vary from student to student and are dependent upon the student's disability and the academic requirements.

If you are a student with a documented disability who may require academic accommodation and have not registered with Student Accessibility and Support Services, please contact their office at<u>accessibility@ambrose.edu</u> or (403) 410-2000 ext. 2956. Students who have not registered with Student Accessibility Services are not eligible for formal academic accommodation. For additional information on support services and accommodations for students with disabilities, visit: https://ambrose.edu/student_life/accessibility-and-support-services

Course Schedule: (Tentative Lecture / Tutorial / Laboratory Schedule)

Week of	Lecture	Tutorial	Lab
Sep 5	Introduction to the course		
	Acidity and basicity		
Sep 12	Stereochemistry	Tutorial 1/Quiz 1	
Sep 19	Stereochemistry		Lab 1:Physical properties of Organic Compounds: solubility and melting point
Sep 26	Sep 28-29: Spiritual Emphasis days (no class)		
Oct 3	Spectroscopy	Tutorial 2/Quiz 2	
Oct 10	Oct 10 Thanksgiving: No class	Term Test 1	Lab 2: Isolation of Caffeine from tea
		Oct.21	Las 2. Isolation of Canenie if on tea
Oct 17	Spectroscopy	Tutorial 3/ Quiz 3	
Oct 24	Spectroscopy		Lab 3: Thin Layer Chromatography
Oct 31	Term Test Nov .6	Tutorial 4/Quiz 4	
	Spectroscopy		
Nov 7	Spectroscopy		
	Nov.10-11 (mid-semester break; no classes)		
	Nov.11-Rememberance Day(no class)		
Nov 14	Ch8: Nucleophilic Substitution reactions		Lab 4: Column chromatography
Nov 21	Ch8: Nucleophilic Substitution reactions	Tutorial 5/Quiz 5	
Nov 28	Chapter 5- Elimination Reactions	Term Test 2	Lab 5: Spectroscopy Dry Lab
		Dec.2	
Dec 5	Chapter 5- Elimination Reactions	Tutorial 6: Final Exam Review	
Dec.12	Last Day of Class	Dec.12	
	Final Exam	Monday, Dec.19	

Policies:

Communication

All students have received an Ambrose e-mail account upon registration. It is the student's responsibility to check this account regularly as the Ambrose email system will be the professor's instrument for notifying students of important matters (cancelled class sessions, extensions, requested appointments, etc.) between class sessions. If students do not wish to use their Ambrose accounts, they will need to forward all messages from the Ambrose account to another personal account.

Registration

During the **Registration Revision Period** students may enter a course without permission, change the designation of any class from credit to audit and /or voluntary withdraw from a course without financial or academic penalty or record. Courses should be added or dropped on the student portal by the deadline date; please consult the List of Important Dates. After that date, the original status remains and the student is responsible for related fees.

Students intending to withdraw from a course after the Registration Revision Period must apply to the Office of the Registrar by submitting a "Request to Withdraw from a Course" form or by sending an email to the Registrar's Office by the **Withdrawal Deadline;** please consult the List of Important Dates on the my.ambrose.edu website. Students will not receive a tuition refund for courses from which they withdraw after the Registration Revision period. A grade of "W" will appear on their transcript.

Exam Scheduling

Students wishing to withdraw from a course, but who fail to do so by the applicable date, will receive the grade earned in accordance with the course syllabus. A student obliged to withdraw from a course after the Withdrawal Deadline because of health or other reasons may apply to the Registrar for special consideration.

Students, who find a conflict in their exam schedule must submit a Revised Examination Request form to the Registrar's Office by the deadline date; please consult the List of Important Dates. Requests will be considered for the following reasons only: 1) the scheduled final examination slot conflicts with another exam; 2) the student has three final exams within three consecutive exam time blocks; 3) the scheduled final exam slot conflicts with an exam at another institution; 4) extenuating circumstances. Travel is not considered a valid excuse for re-scheduling or missing a final exam.

Electronic Etiquette

Students are expected to treat their instructor, guest speakers, and fellow students with respect. It is disruptive to the learning goals of a course or seminar and disrespectful to fellow students and the instructor to use electronics for purposes unrelated to the course during a class session. Turn off all cell phones and other electronic devices during class. Laptops should be used for class-related purposes only. Do not use iPods, MP3 players, or headphones. Do not text, read, or send personal emails, go on Facebook or other social networks, search the internet, or play computer games during class. Some professors will not allow the use of any electronic devises in class. The professor has the right to disallow the student to use a laptop in future lectures and/or to ask a student to withdraw from the session if s/he does not comply with this policy. Repeat offenders will be directed to the Dean. If you are expecting communication due to an emergency, please

speak with the professor before the class begins.

Academic Policies

It is the responsibility of all students to become familiar with and adhere to academic policies as stated in the Academic Calendar. Personal information (information about an individual that may be used to identify that individual) may be required as part of taking this class. Any information collected will only be used and disclosed for the purpose for which the collection was intended. For further information contact the Privacy Compliance Officer at privacy@ambrose.edu.

Extensions

Although extensions to coursework in the semester are at the discretion of the instructor, students may not turn in coursework for evaluation after the last day of the scheduled final examination period unless they have received permission for a course Extension from the Registrar's Office. Requests for course extensions or alternative examination time must be submitted to the Registrar's Office by the deadline date; please consult the List of Important Dates. Course extensions are only granted for serious issues that arise "due to circumstances beyond the student's control."

Appeal of Grade

An appeal for change of grade on any course work must be made to the course instructor within one week of receiving notification of the grade. An appeal for change of final grade must be submitted to the Registrar's Office in writing and providing the basis for appeal within 30 days of receiving notification of the final grade, providing the basis for appeal. A review fee of \$50.00 must accompany the appeal. If the appeal is sustained, the fee will be refunded.

Academic Integrity

We are committed to fostering personal integrity and will not overlook breaches of integrity such as plagiarism and cheating. Academic dishonesty is taken seriously at Ambrose University as it undermines our academic standards and affects the integrity of each member of our learning community. Any attempt to obtain credit for academic work through fraudulent, deceptive, or dishonest means is academic dishonesty. Plagiarism involves presenting someone else's ideas, words, or work as one's own. Plagiarism is fraud and theft, but plagiarism can also occur by accident when a student fails or forgets to acknowledge to another person's ideas or words. Plagiarism and cheating can result in a failing grade for an assignment, for the course, or immediate dismissal from the university college. Students are expected to be familiar with the policies in the current Academic Calendar that deal with plagiarism, cheating, and the penalties and procedures for dealing with these matters. All cases of academic dishonesty are reported to the Academic Dean and become part of the student's permanent record.

Note: Students are strongly advised to retain this syllabus for their records.
