5. Consider economics from ecological and social welfare perspectives.
6. Understand the key economic sectors and challenges in Canada.
7. Develop and understanding of key principles of global economics and development.
8. Articles theories and ideas relating to economics from broad societal and faith based perspectives.

Requirements

Class activities – A variety of tools will be used to help students stay caught up on readings, learn and apply concepts and engage in classroom learning and activities. Most classes will include reading questions, worksheets, short quizzes or classroom discussions that will form a part of this grade. Activities will be announced in class and where advance preparation (other than the readings) is required, additional information will be provided on Moodle. If external circumstances or illness prevent you from attending or adequately preparing for and participating in class, advise the professor ahead of time as you will not receive credit for class activities where you are not actively present. Your active presence includes active participation and refraining from non-class related electronic activity.

Assignments – Instructions for the general assignments will be posted on Moodle. **Late assignments may not be graded.**

Bottom Billion readings & assignments – A portion of the course will focus on globalization and development economics. Using *The Bottom Billion* Book, students will work through a series of five assignments designed to help understand and critique various approaches to development around the world.

Midterm & final exam – The midterm and comprehensive final exam will be closed book. Information on content will be provided throughout the course.

Attendance

Each student is expected to regularly attend and actively participate in class. Group discussions and analysis of course topics will be a key component of learning throughout the term. Students are expected to attend all classes, having prepared for class by reading the assigned readings ahead of time and actively participate in group discussions. The skills needed to participate effectively in class and present your ideas are the same skills required to be effective in the business world. If external circumstances or illness prevent you from attending or adequately preparing for a class, please let the professor know. The instructor may reduce a student's mark by a letter grade (i.e. B to B-) if a student's participation is inadequate (in addition to reductions to the course contribution & participation portion of the grade).

Because of the nature of the Alpha 4.00 system, there can be no uniform University-wide conversion scale. The relationship between raw scores (e.g. percentages) and the resultant letter grade will depend on the nature of the course and the instructor's assessment of the level of each class, compared to similar classes taught previously.

Final grades will be available on the student registration system. Printed grade sheets are not mailed out.

Plagiarism involves presenting someone else's ideas, words, or work as one's own. Plagiarism is fraud and theft, but plagiarism can also occur by accident when a student fails or forgets to acknowledge to another person's ideas or words. Plagiarism and cheating can result in a failing grade for an assignment, for the course, or immediate dismissal from the university college.
