Course Description:

This course introduces models of curriculum design and program development as organizing frameworks for K-6 Schools. Students will examine principles and practices regarding integration of learning theory, evaluation, and assessment. Five curricular commonplaces will be explored: learners and learning, teachers and teaching, subject matter and curriculum schools and classroom, and society and culture. The focus is on the role of the teacher in translating the Alberta Education’s Program of Studies, Elementary Education, into longer term learning experiences (units) for teaching for all learners, including those with special needs and those coming from various cultural backgrounds, especially First Nations educational challenges and opportunities. Inquiry is emphasized.

Expected Learning Outcomes:

At the end of this course, students will be able to:

- Identify the big ideas and key competencies in a unit of study.
- Write age-appropriate essential questions that drive student thinking into the big ideas.
- Explain what it means to “understand” and list possible evidences of understanding.
- Design summative assessment tasks that measure progress toward and achievement of outcomes.
- Consider the experience of being an ELL student in an Alberta classroom.
- Speak expertly about one learning exceptionality and how to plan for it in your classroom (Autism, FASD, Dyslexia, ADHD, Downs Syndrome, Anxiety Disorder, ODD).
- Make inquiry ubiquitous in your planning.
- Compare and contrast the two sides of the “*math wars*”.
- Plan a unit of study using backwards design.
- Make a teacher professional growth plan, identify your indicators of success and self-affirm your progress.

Policies:

Communication

All students have received an Ambrose e-mail account upon registration. It is the student's responsibility to check this account regularly as the Ambrose email system will be the professor's instrument for notifying students of important matters (cancelled class sessions, extensions, requested appointments, etc.) between class sessions. If students do not wish to use their Ambrose accounts, they will need to forward all messages from the Ambrose account to another personal account.

Registration

During the **Registration Revision Period** students may enter a course without permission, change the designation of any class from credit to audit and /or voluntary withdraw from a course without financial or academic penalty or record. Courses should be added or dropped on the student portal by the deadline date; please consult the List of Important Dates. After that date, the original status remains and the student is responsible for related fees.

Students intending to withdraw from a course after the Registration Revision Period must apply to the Office of the Registrar by submitting a "Request to Withdraw from a Course" form or by sending an email to the Registrar's Office by the **Withdrawal Deadline**; please consult the List of Important Dates on the my.ambrose.edu website. Any attempt to obtain credit for academic work through fraudulent, deceptive, or dishonest means is academic dishonesty. Plagiarism involves presenting someone else's ideas, words, or work as one's own. Plagiarism is fraud and theft, but plagiarism can also occur by accident when a student fails or forgets to acknowledge to another person's ideas or words. Plagiarism and cheating can result in a failing grade for an assignment, for the course, or immediate dismissal from the university college. Students are expected to be familiar with the policies in the current Academic Calendar that deal with plagiarism, cheating, and the penalties and procedures for dealing with these matters. All cases of academic dishonesty are reported to the Academic Dean and become part of the student's permanent record.

Note: Students are strongly advised to retain this syllabus for their records.
